IT'S IMPORTANT TO REMEMBER that this is NOT a race, or sanctioned. There will be no times or winners or prizes or anything official. That would come with all kinds of additional responsibility that VIRC doesn't want or accept. You'll just get a crummy little paper passport, a map and a slap on the back from a group of equally crazy friends. We obviously can't make promises to anyone concerning their safety. The roads on Vashon are dangerous - very steep and narrow, turns are very sharp, and the surface is potholed, broken and gravel covered in numerous places - there's also ferry traffic, animals, you name it... We obviously cannot guarantee good weather, or your sanity. MOST IMPORTANTLY, this is an extremely strenuous ride, and those uncertain of their top fitness should not attempt it. All riders and volunteers will be responsible for all aspects of their own safety, bike repair and health (including food and water).
